2) Approve Executive Committee Meeting Minutes – February 17, 2015

Motion by Director Griffin, seconded by Peter Parsons to approve the Executive Committee Meeting Minutes of February 17, 2015 as presented, passed.

3) Project Status Update

Kevin Fitzpatrick gave an update of three projects that are going to construction. PutVal-PA-02 Greenway Terrace - Legacy Valve (lowest bidder) has informed us that they will hold their bid from last year and change the contract to lump sum rather than unit price and are prepared to sign an amended agreement. Y-MU-14 and C-NC-01B are at 100% design and will be going to bid next week and plans are to award the jobs separately. Kevin Fitzpatrick will update the executive committee on the efficiencies for both projects.

Cortlandt requested to go to bid on C-NC-01A which was canceled at 100% design in July 2014, with a 5.6 kg. reduction and an efficiency of \$152,413/kg. 7,000 cubic yards of earth work needs to be done to make the project possible. Cortlandt requested that we go to bid to determine the cost and will make a decision based upon the bids. Discussion by Executive Committee took place on ways to move the earth economically in order to make the project viable.

Four projects will be reopened in 2015 that were previously canceled:

- Carmel-AM-111A and Carmel-AM-111B (Mahopac Elementary School) were awarded last summer but were canceled because they were not efficient. Essentially, the issue was the cost

of paving. Kevin Fitzpatrick will have a conversation with the Board of Education in Carmel to discuss removing the pavement from the contract.

- Carmel-CF-103, Putnam County Hospital was non-responsive to efforts to contact them. Kevin Fitzpatrick has requested that the Town of Carmel contacts them to further discuss the project.
- Y-MU-10 (DOT property in Yorktown), brought past 60% design with 4 kg. of phosphorus reduction. Project was canceled because Westchester County Parks Commission was not responsive toward helping us get an easement.

Director Burdick and Director Parsons proposed that due to inefficiency, we go to an in-house basis on smaller jobs. Motion by Director Parsons, seconded by Director Burdick to table Solicitation 2015-05; all in favor.
