8) Other Business

Director Lucas took a moment to recognize new Board members who were present and welcomed them. He informed new members that the organization was incorporated in 2011 and explained that the Corporation is under bubble compliance as an MS4 to do phosphorus reduction in every town. Each town has a phosphorus goal they must reach. The organization was formed so that we are in bubble compliance, meaning for example, that if a project is installed in Patterson, it benefits all 19 municipalities. If there is some interest in understanding why we started the Corporation and what it is doing for us, we would be happy to do that with everybody. Kevin Fitzpatrick, Linda Matera, Keith Giguere and Cory Lapidus were introduced to members as the East of Hudson Watershed Corporation employees. We've been very fortunate up to this point to get funding from either the Water Quality Improvement Projects (WQIP) program or the New York City Department of Environmental Protection (NYCDEP) to pay for everything. Prior to that, it was up to the individual municipalities to achieve their phosphorus goal on their own. For example, the estimated cost in North Salem prior to this program was \$1.7 million. This program is being done on behalf of all the towns in the New York City Watershed. It has been working fairly well. Vincent Giorgio from NYCDEP and Millie Magraw from the Westchester County Planning Department are involved and attend our meetings regularly. There are many projects and the program is ongoing. If you are not familiar with what's been going on in your towns, we will be more than happy to discuss that and give you a little more information about exactly what this is doing for us. Director Williams informed members that this is a requirement of the MS4 Program which we are all required to implement. It is a 10 year program and we are currently in year 11. We are presently wrapping up the stormwater retrofit projects we were committed to do in the first 10 years. At this time we are waiting for the New York State Department of Environmental Conservation (NYSDEC) to issue the new MS4 Permit that we anticipate is going to extend this program for another 10 years. We saw an earlier version of the MS4 that wasn't very favorable, but with EOHWC we were able to fight it back pretty well. Director Lucas took a moment to introduce the Corporation attorneys, Christine Chale and Patrick Logan.
